

Apple Pie Slow Cooked Apples

MAKES 6 - 8 SERVINGS

Ingredients:

- 12 small sweet-tart apples (2" diameter)
- 1 Tbsp Apple Pie Fresco Spice Blends

Note: Spice to your preference. Use less spice for a lighter flavor and more spice for fuller flavor

Directions:

Peeling the apples is optional. Slice or chop the apples to the desired size. Place apples in the slow cooker. Add the spice blend evenly over the apples. Place lid on slow cooker and set temperature setting to high. Cook for three hours (less for firmer apples, more for softer apples).

Note: Apple Pie Spice has the following ingredients - cinnamon, nutmeg, allspice, and cloves.
